Fudge & Chocolates

Winfrey's Fudge & Chocolates began in the basement of our home in 1979. Stuart & I stirred batches of fudge in a copper kettle over an open flame gas stove. In those days we couldn't afford a paper tape dispenser so we took the paper tape upstairs and cut it into the correct length while we watched TV. In the evenings at home we silk-screened each box that we put our 12 ounces of fudge into. We soon had to expand our production to a larger kitchen; we bought a paper tape cutter and had Mod-Pac print our boxes (we could finally make the minimum order of boxes with them). 10 years later we purchased our own building in Rowley, Ma in 1990.

Today we still manufacture our fudge in copper kettles stirred over open flame gas stoves only our children have taken the leadership. Scott, Mark and Jillian continue to use only the finest ingredients when making the Winfrey family secret recipes.

Our confections are skillfully blended to produce New England's best confections available for wholesale.
